Rib-Transfer And Racking With Auto - Stripper
Electronic Jacquard Circular Knitting Machine
羅紋六色變色上下移圈及搖床電腦緹花針織機 PL-KRTDCJ

Products Introduction

PL-KDCJ is a thoroughbred model with the latest technology and refinement. It's design philosophy is uncompromising and brings together practical application, making a double jersey full jacquard knitting machine great with that unique Pai Lung spirit.

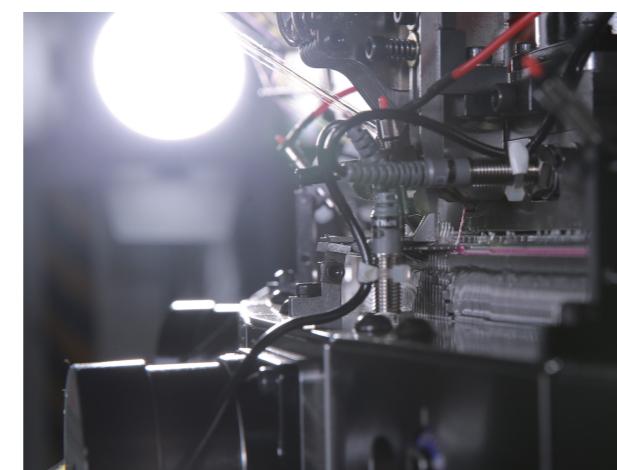

In response to market demand, a new product which combined innovation and development across flat knitting and circular knitting field is published. Its function includes rib with six colors auto stripe, rib mesh transferred either from dial to cylinder or from cylinder to dial, Electrical stitch adjustment, even racking.

This machine is based on 3 feeders as 1 unit. Including knitting feeder, cylinder loop transferred to dial and the dial loop transferred to cylinder. Every 3 feeders becomes a complete knitting unit. For example, if the machine specification is 42" x 36 Feeders, which means 12 feeders are knitting feeders and 24 feeders are rib transferred feeders.

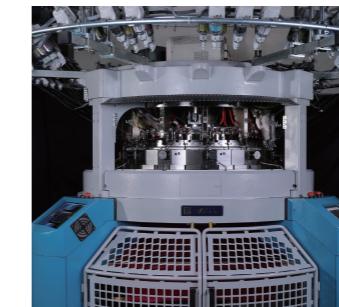

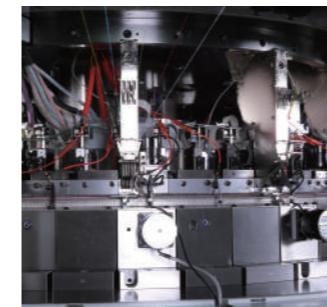

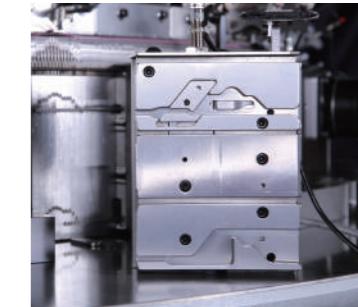

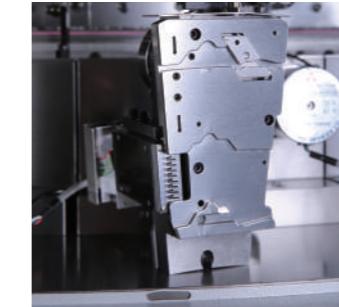

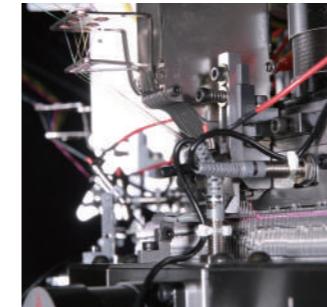

Another function is the stitch can be controlled by controller or pattern. Loop stitch length could be changed without machine stop or manual

operation. With total 20 levels for 2mm distance each knitting feeder can be adjusted independently.

It also combined racking function, from the concept of the flat knitting machine. Which gives a circular knitting machine the possibility to knit both rib color stripe, double jacquard, jacquard transferred, even special structures like links/links lace, cable or Multi-Bourrelete.

產品 介紹

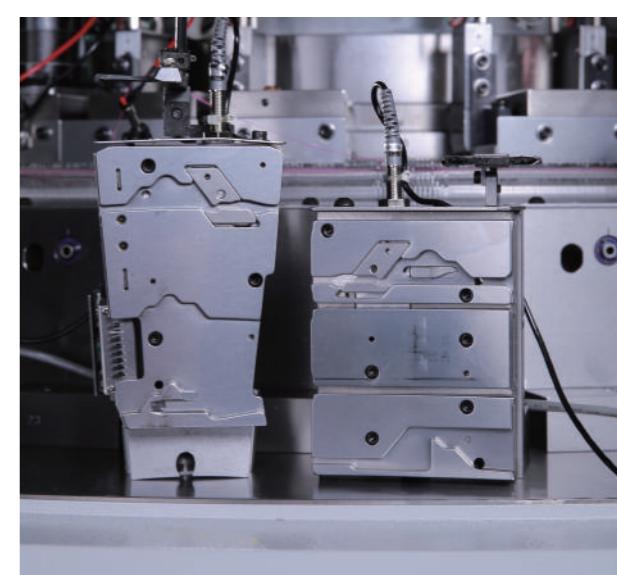

PL-KRTDCJ

來自於針織的熱誠,對於雙面電子提花機的運用,佰龍公司永不懈怠地自我升級,其發展已有目共睹。專注於本業發展的精神,持續累積業界實際操作經,奠定了對此機型運用面上堅強實力。

因應市場需求,創新開發橫跨橫編與圓編領域的新世代機種,結合電子選針大提花、羅紋六色變色、上下移圈、電子變更度目及搖床功能的多功能複合機因而產生。機台的原始配置為每3口(包括織造口、下圈上移、上圈下移)為一完整編織單位;以此機台規格 42" x 36F 為例,就是 12 口織造、24 口移圈;亦可搭配增減織造口比例作變化。

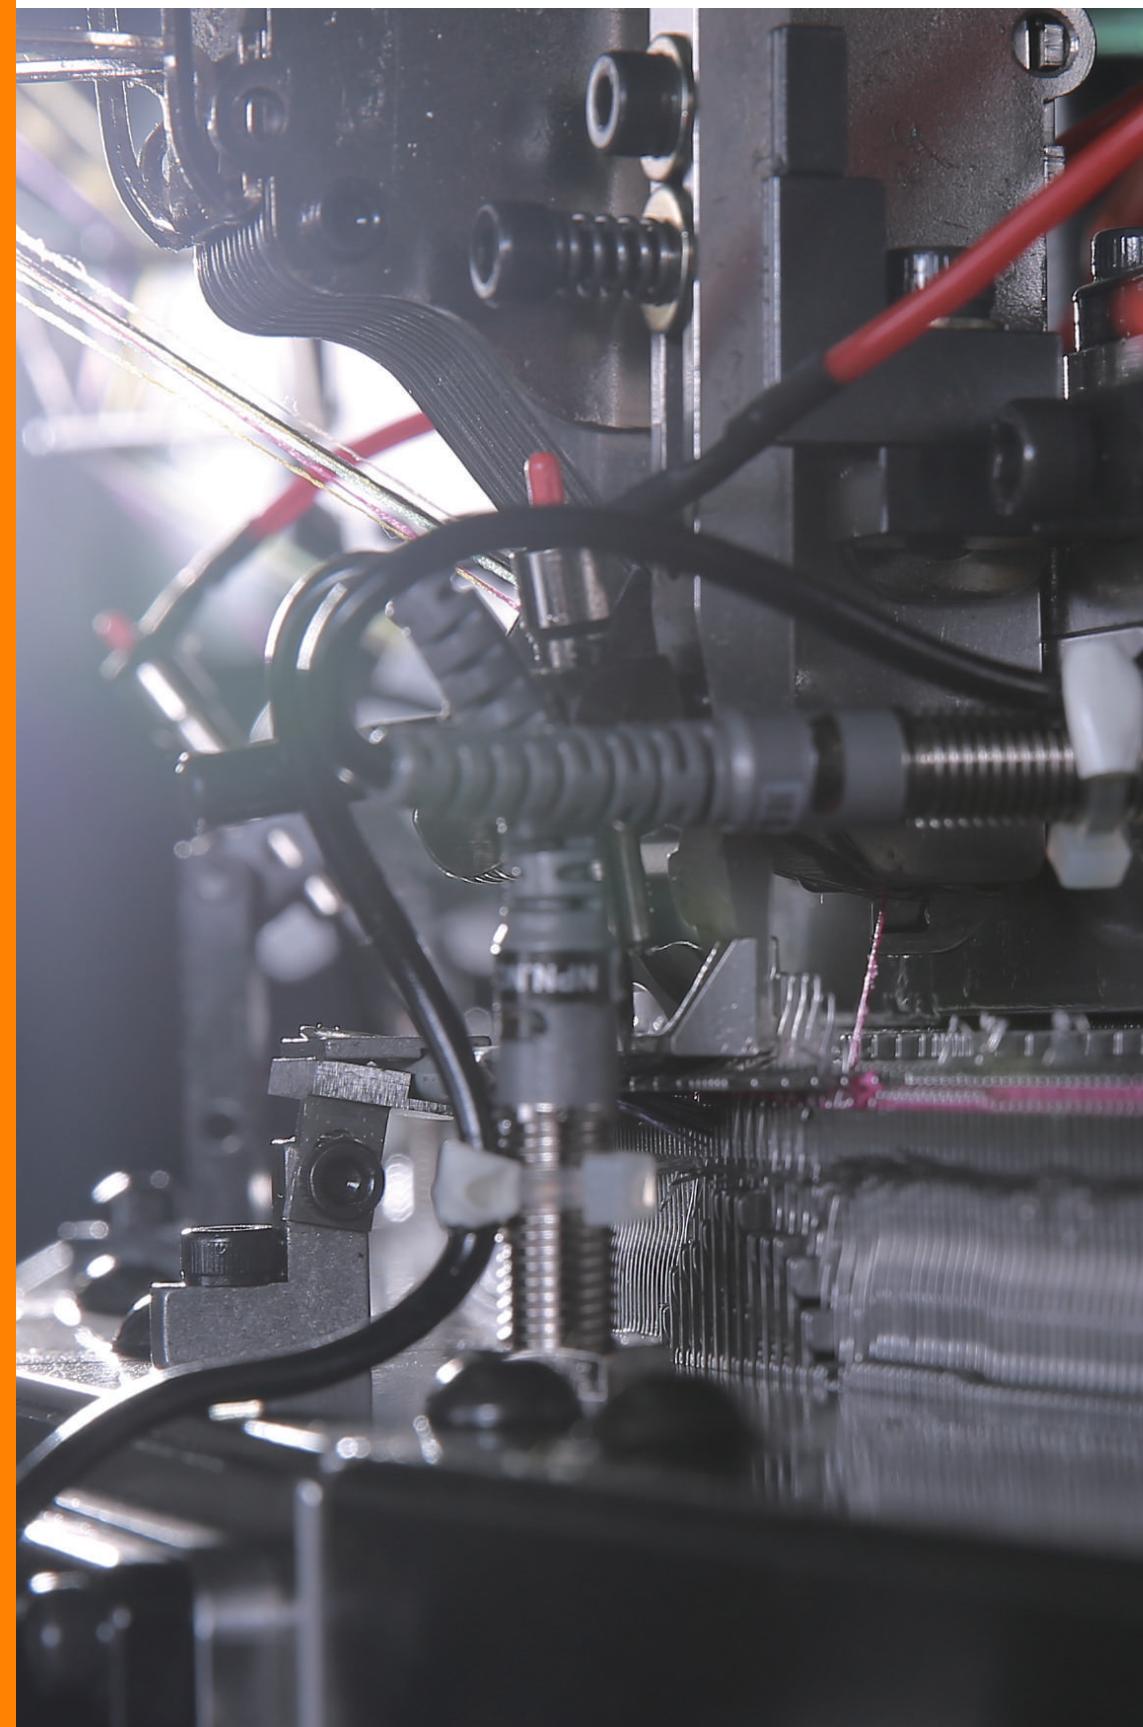

織造的同時可由控制器控制織造口收針深度,或依照組織區段需求,各織造口可獨立調整度目。無須停機手動調整度目,提供更方便的操作,可由控制器或圖檔設定同時控制織造口收針深度,或依照組織區段需求各織造口可獨立調整,總調整動程設定為 2mm/20 段。

該機型同時結合橫編機之搖床功能,也就是除了編織圓編機可織造之羅紋變色、雙面提花與移圈提花布種還可以編織特殊變化組織、正反目組織、蕾絲、麻花及贊肉布。
